

Western Great Basin Geographic Area Daily Briefing
Friday, September 29, 2006 @ 17:30 PDT
Geographic Area Preparedness Level 2

Light initial attack activity with **0** new fires and **0** acres reported. To date **1,191** fires for **1,306,777** acres have been reported, compared to last year at this time when **769** fires for **1,030,542** acres were reported.

RED FLAG WARNING: NONE ISSUED AT THIS TIME

FIRE WEATHER WATCH: NONE ISSUED AT THIS TIME

For WEATHER go to: <http://gacc.nifc.gov/wgbc/predictive/weather/weather.htm>

RESOURCE STATUS:

All areas appear to have adequate levels of resources (engines, water tenders and dozers) available to work new initial attack activity. Fires escaping initial attack will have a moderate to low potential to become large fires due to the effect of lighter winds and cooler, moist weather on the fuels.

For AIR TACTICAL go to: <http://fsweb.ebc.r4.fs.fed.us/scripts/tactical/tactical.php>

For TYPE I CREWS go to: http://fsweb.ebc.r4.fs.fed.us/scripts/crew_stat/crew_status.php

For SMOKEJUMPERS go to: <http://www.nifc.gov/smokejumper/smirpt.php>

Resource	Agency	Location	Staffing	Status
Type 1 IMT	UT-EBC	Various	Martin	AVAILABLE
Type 2 IMT	UT-EBC	Various	Suwyn	AVAILABLE
